

K-LOVE radio station serves me as a resident of El Paso. The effect on El Paso if K-LOVE were to be displaced by an LPFM broadcaster providing other programming, would be devastating to both our community and the nation. It is a very valuable program to me personally and to my family and friends. We would be extremely upset if this station is interrupted in our community. It is of great value to the public through its inspirational music and pastoral services that are provided. Please do NOT change K-LOVE from an FM translator to a Low Power FM (LPFM). Thank you for listening to me.
